

3M™ Detection System Select Series

Superior security, seamless style

Now your security system can make a statement and blend seamlessly with your library's décor. Designed for use with 3M™ Tattle-Tape™ Security Strips, the new Detection System Select Series offers you the performance you need and security you can count on to protect your library items from loss. Along with a built-in red LED alarm light and a low frequency signal to minimize separation needed between the detection system and nearby metal objects, it also features an audible alarm and is completely safe for all magnetic media. With over 30 different color and design options available and a variety of mounting options and corridor configurations, this unit provides the flexibility to keep up with the changing look of your library without replacing your security system.

Innovative Design

- Choose from over 30 material/color choice combinations
- Option to change panels
- Fits a variety of library décors
- Alarm light adds visibility with style
- Choose single or dual corridor

Excellent Security

- Designed for 3M™ Tattle-Tape™ Security Strips
- Photocell activation reduces unwanted alarms
- Corridor specific alarming
- Installable within 18 inches of metal

Customer Counter

- Integrated patron counter that is easy to read (close to eye level)

Low Frequency Technology

- Minimizes separation needed between the detection system and nearby metal objects

[OPTIONAL] Voice Alarm

- Wireless RF transmitter and receiver
- Easily record and change message of your choice
- Unobtrusive and non-discriminating

Versatile Performance
